

The Tower Series is a system of quality hardwood wine racking designed in a vertical column format. A wide variety of wine storage and wine display tower arrangements reflect both traditional and transitional styles.

From freestanding furniture to custom wine rooms, each tower is thoughtfully engineered with a specific combination of wine racking, bottle capacity and proportion to accommodate almost any wine storage requirements.

Use as a single unit or combined with additional Towers to create your own unique design from furniture to aesthetic wine room presentations and even complete wine cellars.

A comprehensive line of molding, fillers and panels are available to finish and customize any design. Box construction design ships Ready To Assemble RTA or fully assembled and ready to install.

1877.ET.R-P

BOTTLE CAPACITY: 73

- Base unit Rectangle Bins for loose bulk wine or wood case storage – includes 3" base platform
- Display Row unit Parallel wine hardware with LED lighting option
- Upper unit Parallel metal wine hardware, label forward wine storage 3 deep
